# Rx Skin Brilliance

## HydraFacial MD

### Rx PMD (Platinum HydraFacial MD)

The ultimate HydraFacial Experience. Incorporating lymphatic drainage detoxifies and reduces excess fluid, sculpts the jawline, cheekbones and periorbital area for a more defined appearance. It is followed with the Rx Signature treatment to deeply cleanse and exfoliate your skin with the custom GlySal extract, then emulsifies the skin in peptides and hyaluronic acid for deep hydration. Your treatment will conclude with the Rx Deluxe to address your skin's specific concerns using your personalized booster and LED light therapy. Rx PMD truly is the *ultimate* skin experience.

### Rx DMD (Deluxe HydraFacial MD)

Personalize your HydraFacial MD experience based upon your skin health goals or your unique concerns. Personalization is achieved by utilizing a custom GlySal formulation, a booster to address specific concerns or promote your individual skincare goals through brightening, growth-factors, Dermabuilder, or your choice in another MD Booster. This is followed by an emulsification in peptides and hyaluronic acid to bask your skin with hydration that will be treated by Blue or Red LED light therapy for deep penetration and to target specific concerns. This reduces the appearance of fine lines and wrinkles and results in polished, healthy glowing skin.

\*Ask about our HydraFacial Membership Pricing!

## Rx Skin Upgrades

### Rx Diamond HydraFacial

Diamond-Tip Microdermabrasion is incorporated into your choice of HydraFacial MD for a gentle yet powerful exfoliation to allow for the maximum amount of infusion into your skin.

### Rx Dermaplane HydraFacial

Combine dermaplaning & HydraFacial MD for the smoothest exfoliation experience. Using a specialized blade, vellus hair and rough surface cells are gently removed prior to the HydraFacial MD treatment of your choice, resulting in baby smooth skin.

\*These are add-ons to a Skin Brilliance, HydraFacial Treatment, not single-session.

# Rx Exfoliation

## Dermasweep Pro

Go beyond the surface with effective non-invasive treatment options for all skin types. Our unique and customizable technology gently lifts away the top layer of skin, increases micro-circulation, and delivers key skin nutrients. Exclusive MD solutions formulated with cutting-edge ingredients are added to target specific skincare needs. From soothing Hyaluronic Acid to no downtime Peelfusions, to the glamorous Red Carpet Ready treatment. Layered within one treatment or over a series of treatments, skin health is restored and skin aging is reduced.

DermaSweep's 3-in-1 patent-pending bristle-tip powered micro-resurfacing helps improve micro-circulation and lymphatic drainage. Paired with our targeted SkinFusions, this synergistic treatment helps boost collagen and elastin, resulting in firmer, more resilient, younger-looking skin.

## DiamondTome Microdermabrasion

Treatment with our diamond tipped face wands are considered "lunch hour" procedures. They take about 30 to 45 minutes, and you will be able to return to work and your normal daily activities right away. Diamond tip microdermabrasion will give you an instant glow and is perfect prep for special occasions or and every day radiance.

## Dermaplaning

Dermaplaning is a non-invasive cosmetic procedure that gently removes the top layers of your skin using a specialized blade. The procedure aims to remove fine wrinkles, acne scarring, and makes the skin's surface look and feel smooth.

## Chemical Peels

A chemical peel is a procedure in which a chemical solution is applied to the skin to gently remove the top layers. Chemical peels are used to treat wrinkles, discolored skin and scars – usually on the face. They can be done alone or combined with other cosmetic procedures. And they can be done at different depths, from light to deep.

*\*Priced upon evaluation of individual need.*

# Face Forward

## Rx Radiance (Fire & Ice)

Our luxe *iS Clinical* treatment is clinically formulated with 18% unbuffered glycolic acid, lactic acid, citric acid, malic acid, retinol, vitamin B3 and potent antioxidants, including green tea extracts. It will slightly tingle as it begins to rejuvenate! After the fire comes the ice -- a resto masque designed to cool and soothe the skin. This intensively hydrating masque contains hyaluronic acid, aloe vera gel, Japanese green tea extracts, licorice extracts, grape seed extracts, and rosemary extracts.

## Rx Exquisite (Foaming Enzyme)

A blissful, results-driven facial awaits you! Our soothing, yet powerful, *iS Clinical* Foaming Enzyme combines papaya and pineapple enzymes with a potent clinical-level grade of glycolic acid. Producing a foaming action allows bioactive ingredients to exfoliate and deep-cleanse the pores. Unveiling a polished, healthy, and glowing complexion.

## Rx Clarity (Exfoliating Clear Skin)

Let your skin breathe! A clarifying treatment that provides gentle exfoliation using a tri-active exfoliant and a clay and olive oil extract mask to purify and detoxify your skin. Then a soothing mask basks your skin in hyaluronic acid, green tea, and aloe vera to calm and protect.

## Rx TriFecta (Honey Enzyme)

Nature at its best! This luxurious, exfoliating, ultra hydrating facial enhances your skin through gentle massage and soothing hydration. Resulting in a dramatically smoother, brighter and revitalized complexion with a noticeable glow.

# Face Forward

## Divine Youth

This facial uses products full of powerful anti-aging peptides. From the ultra-luxurious multi step cleanse, to the fan application of an antioxidant rich mask, every step along the way indulges your skin in youthful pampering. The facial is complete with a relaxing scalp massage for total relaxation.

## Divine Collagen

This facial is deeply hydrating. It uses mild exfoliation to prepare the skin for receiving a high dose of collagen from Hydropeptides' Topical Sheet Mask. This facial is an excellent anti-ager and very relaxing.

## Divine Detox

This facial is designed to purify and deep cleanse the skin and pores from both physical and environmental toxins. This facial uses a multi-layer system for optimal detoxification. A Nordic clay mask is used to pull toxins from deep inside. Then, a soothing balm is applied to rehydrate and calm. This facial provides deep cleansing without leaving the skin feeling stripped.

## Divine Sensitive

This facial uses only the most gentle of products to cleanse, exfoliate, and soothe. The products are safe for all skin types, including the most sensitive of skin. Gentle and relaxing pampering of the skin is the goal for this facial, with a result that's sure to please!

## Divine Back 'Facial'

This facial is designed specifically for the back. It consists of a multi-step cleanse with gentle exfoliation. A hydrating or detoxifying mask will be used based on current skin needs. Followed by a soothing balm that is massaged into the skin for ultimate relaxation.

## Cryofacial

Cryotherapy has so many benefits, including: Anti-Aging & Skin Rejuvenation, Improvement in Collagen Production, Reduces Acne & Skin Blemishes, Refines Skin Appearance, Anti-Inflammatory Properties, and Strengthens the Skin.

# Wrinkle Relaxers (Neuromodulators)

Wrinkle-smoothing botulinum toxin type A injections are the most common non-invasive aesthetic procedure in the U.S. And, while they are colloquially called “Botox,” there are actually five different BoNT-A injectables FDA-approved for cosmetic use.

*\*Keep in mind that one unit of Botox is between 2.5 to 3 units of Dysport, so the average price for your complete treatment will be similar to either product depending on your individual needs.*

*Allergan - Botox ..... Results last 3-4 months.*

*Merz - Xeomin ..... Results last 3-6 months.*

*Average treatment is 20 to 60 units though some clients prefer more or less.*

# Dermal Fillers (Hyaluronic Acid)

Allergan

## Ultra XC

Pucker up! Commonly used for lip enhancement and smoothing of the perioral area.

..... Results last up to 1 year.

## Ultra Plus XC

Early interventions! This is great for anyone new to fillers and who has mild to moderate volume loss and creasing to correct.

..... Results lasting 9-12 months.

## Volbella XC

This is the go to for a beautiful pout! Most often used for lip augmentation and the correction of perioral lines.

..... Results lasting up to 1 year.

## Vollure XC

Define and lift! Most commonly used to correct moderate to severe wrinkles and folds such as the nasolabial folds.

..... Results lasting up to 18 months.

## Voluma XC

Let's get CHEEKY! Most often used to contour cheeks or correct age-related volume loss.

..... May last up to 2 years.

# Dermal Fillers (Hyaluronic Acid)

## Galderma (Restylane)

### Kysse

The first lip filler designed with XpresHAN Technology for flexible movement and natural-looking volume.

..... Results lasting up to 12 months.

### Lyft

Specifically designed to add fullness to the cheeks, midface area, and the back of the hands to help complete your aesthetic look -- for face and hands.

..... First-time 6-9 months, second-time 10-12 months.

### Defyne

As we age, our skin loses elasticity causing lines that run along the side of the face and mouth (nasolabial folds and marionette lines) as well as the chin to recede so far back toward the neck that it creates an imbalance of facial features. Defyne is used to restore this imbalance.

..... Results last up to 12 months.

### Refyne

is designed with XpresHAN Technology to help soften laugh lines (nasolabial folds and marionette lines). This can help restore a more natural look to your face while maintaining your facial expressions, so you always look like you.

..... Results last up to 12 months.

## Merz

### Belotero+

A beautifully smooth filler perfect for fine lines. The crosslinked formulation allows a seamless integration into the skin providing superior smoothing. A look you will love for 6 to 9 months.

..... Results last up to 6 months.

### Radiesse

Not a Hyaluronic Acid Based filler, rather it is a collagen-stimulating dermal filler made of calcium-based microspheres within a water-based gel. Stimulating collagen deep within the skin so that your body can rejuvenate your skin from the inside out. It works immediately, can last for up to two years, and is a highly sought-after choice for dermal filling. This is a great longer term treatment option and is great for revitalizing aging hands.

..... Results lasting up to 15 months.

# *Dermal Fillers (Hyaluronic Acid)*

## RHA® Collection - The Designer Filler

### RHA® 2

RHA® dermal filler is designed for dynamic wrinkles and folds. RHA® 2 is a highly resilient, stretchy formula that is ideal for moderate wrinkles, such as moderate nasolabial folds  
..... Results lasting up to 15 months.

### RHA® 3

RHA® 3 is equal parts resilient and strong, meaning that it has a thicker formula for building up volume to smooth more severe wrinkles  
..... Results lasting up to 15 months.

### RHA® 4

RHA® 4 is designed to provide volume in dynamic extended areas such as the cheeks and facial contours  
..... Results lasting up to 15 months.

### RHA® Redensity

Redensity is a new, FDA-approved, lip line injectable treatment designed for even the finest wrinkles and lines around the lips, and smile lines.  
..... Results lasting up to 15 months.

## Revanesse®

### Revanesse® Versa

Versa is an FDA approved HA dermal filler that can be used to treat moderate to severe facial wrinkles and folds, including nasolabial folds. This filler may last up to 12 months.

### Revanesse® Lips

Revanesse Lips is an FDA approved HA dermal filler that can be used for submucosal implantation for lip augmentation.

# *Other Cosmetic Injectables*

## Sclerotherapy

Sclerotherapy is a procedure used to treat blood vessel malformations and also malformations of the lymphatic system. A medicine is injected into the vessels, which makes them shrink.

## Kybella

KYBELLA® is the only FDA-approved injectable treatment that destroys fat cells in the treatment area under the chin to improve your profile.

# *Lasers, Lights, and Everything Nice*

## Laser Hair Reduction

### Alma

Alma Harmony's SHR (Super Hair Removal) is virtually pain-free, safe for all skin and hair types, is fast, and requires NO downtime! Advanced contact cooling technology keep clients comfortable during treatment. The sweeping In-Motion technique allows the laser to be in constant motion, ensuring full coverage and a shorter treatment time. The Alma Harmony Laser also has a variety of applicators which allows your technician to treat even the smallest and most sensitive areas.

\*Sold in packages of 6, single sessions for maintenance available.

## Laser Skin Rejuvenation

### Pixel Resurfacing - Alma

Alma's Tone & texture treatments use light and laser-based skin resurfacing technologies to smooth out and balance the skin- thus improving overall skin tone, elasticity and texture. They help reducing superficial pigmentation and pore size, while helping to bolster the skin against future aging. Additionally, these advanced skin treatments can improve the appearance of acne scars.

\*Sold in a package of 4, or single session.

### Alma ClearSkin Pro

Alma's ClearSkin Pro is the first technology to combine a non-ablative laser with simultaneous contact cooling and vacuum technology to treat acne and acne vulgaris safely and effectively. While there are many treatment options available for acne, both prescription and over-the-counter, these do not work for everyone. When acne is particularly stubborn or severe, a more advanced solution may be needed.

The cooled Er:Glass laser with Vacuum treatment addresses all forms of acne vulgaris including papules, pustules and nodules, while also achieving a gentle rejuvenation effect, diminishing the appearance of acne scars by stimulating collagen renewal.

## Laser Skin Rejuvenation Continued

### Spider Vein Treatment

Laser/light therapy is a non-toxic and non-invasive therapy that uses light energy to destroy unwanted cells and veins. During laser/light therapy, a laser is applied to the spider veins. The laser transmits photons that are absorbed by the blood cells in the veins, which generates heat that destroys the blood vessel. The damaged vein shrinks and eventually dissolves over time.

\*Price may vary depending on treatment area and size.

### Intense Pulsed Light Therapy

Intense pulsed light is successful in addressing melasma, fine lines and wrinkles, dark spots, visible capillaries, and redness. While results may be visible after one session, a series of 3-6 treatments is typically recommended for optimal results. Due to its non-ablative nature, intense pulsed light requires very little downtime and can be repeated once a month as advised by your skincare professional.

\*Price may vary depending on how many series is needed.

## Body Contouring

### Light Lipo

Vevazz Laser Light Lipo Therapy is a safe, painless, and completely non-invasive treatment for fat loss, spot reduction, and aesthetic body contouring. LED lights penetrate beneath the skin and work in just 7-14 minutes per treatment area.\* The paddles target specific areas such as the waist, thighs, and arms, while the bed is used for a full-body result. Vevazz™ treatments are as simple as lying in a tanning bed while letting warm, relaxing LED lights do all the work.

\*Sold as a package of 18 treatments.

### UltraShape Power

UltraShape® Power is FDA-cleared for non-invasive reduction in abdominal circumference and fat reduction in the abdomen, flanks, and thighs.

It gently destroys fat by delivering non-thermal ultrasound energy waves that are:

- Focused - delivering ultrasound energy to tissue within a precise focal volume at a controlled depth
- Pulsed - the mechanical non-thermal effect results in minimal elevation of 0.8°C in treated tissue for a truly comfortable and gentle treatment experience
- Selective - precisely targeting fat cells while blood vessels, nerves, and surrounding tissue remain largely unaffected

## Body Contouring Continued

### Zerona

Erchonia's Zerona Z6 is a full body fat loss treatment that allows clients to target areas of stubborn fat, and is first laser specifically designed for body contouring. With every treatment you will receive vibration therapy. The Zerona Z6 is also FDA- Market-Cleared, non-invasive and clinically tested!

## *Sexual Health and Wellness*

### Viveve

V-juvenation with The Viveve 2.0 is designed to address common vaginal health conditions such as urine leakage, vaginal dryness, and laxity of the vaginal canal. Additional, external treatment of the outer labia can also be done to promote collagen production.

This procedure promotes stimulation of new vaginal tissue growth, triggers collagen production, and restores lubrication to the vaginal mucosa. It is safe and painless and optimal results are seen a few weeks after just one 30-60 minute treatment!

### Alma Duo

Alma Duo is an in-office, aesthetic treatment that uses gold standard shock wave technology, focused low-intensity extracorporeal shock wave therapy (LI-ESWT), clinically validated to stimulate better blood flow and restore his natural sexual performance – bringing spontaneity back to his life!

\*Sold as a package of 6; Two times per week for 3 weeks.
